

# General Purpose Ultrasound System

## Superior Features, Flexible and Versatile

- High Resolution Imaging
- Advanced Imaging Technologies
- Ideal for Shared Services
- Streamlined Workflow

Quantum  
Technology

# Powerful and Versatile Ultrasound System

The SonixOP Q+ is a high-performance, multi-purpose ultrasound system incorporating Quantum Plus Technology for excellent image quality.

## High Resolution Imaging with Advanced Technologies

- Fast and accurate performance
- High Resolution 19" LED monitor
- Sensitive color Doppler with excellent spatial resolution and sensitivity
- Motion Compensated Angular Compound Imaging (MACI) ensures high quality real-time images

## Fully-Featured System for Shared Services

- Full range of features including PW, CW and Color Doppler, Spatial Compounding, EPI, Pulse Inversion Harmonics, Trapezoid, and Panoramic Imaging
- Comprehensive cardiac calculations and report packages

## Flexible and Easy to Use

- Designed with dedicated keys for the application at hand – Cardiac, OB/GYN, Vascular, Musculoskeletal and more
- Double full swivel wheels for easy maneuverability
- Adjustable monitor and console for greater operator comfort
- Easy-to-clean color touch screen with a wide viewing angle for controls at your fingertips

## Innovative Needle Guidance

- SonixGPS helps improve the speed and accuracy of difficult procedures
- SonixShine needle enhancement technology illuminates needle in-plane with the touch of a button

## Optimized Workflow and Patient Management

- SonixHub - streamlines your credentialing, billing and quality assurance processes
- Barcode reader and wireless access simplifies patient information into and out of the system
- SonixCam - HD recording of complete procedures for educational needs

*Sensitive color flow and pulsed wave Doppler*

*Fetal profile 34 weeks*

*SonixGPS - a Breakthrough in Needle Guidance*

# Excellent Image Quality and Advanced Features for a Variety of Exams

*Endovaginal image of Lt Ovarian Cyst*

*Endocavity image of the Uterus*

*Dual imaging for a wider field of view*

*Transverse image Rt Kidney Liver and Gallbladder*

*Haemangioma Rt lobe of the Liver*

*Full thickness tear Supraspinatus tendon*

*Color flow imaging Lt Common Carotid artery*

*Short axis view of the biceps tendon with associated fluid collection*

*Simultaneous color and 2D imaging of the Common Carotid Artery*

*14 week Fetus*

*Aortic Arch 22 week fetus*

*Fetal Profile 21 weeks*

# Innovative Solutions for Life

Analogic Corporation creates innovative technology to improve the health and ensure the safety of people around the world. We are committed to providing ultrasound solutions, under the Ultrasonix brand name, that advance medicine and save lives.

## High Performance, Lightweight Transducers
